

Making Hedging Simple

Insure your farm against volatile commodity prices

WHAT?

Stable is the first of its kind to provide a simple insurance product that protects farmers from volatile prices and costs.

WHO?

Designed by British farmers, alongside global insurance and commodity specialists, Stable enables Dairy, Arable and Livestock farmers to insure their business from price falls or cost rises.

WHY?

To protect your business from volatile prices and costs. You may not be able to control demand and supply, the weather or politicians but you can now protect your business against volatile prices.

WHERE?

You can get a free quote online and from a wide range of local and familiar distributors.

HOW?

As a farmer you can get a free and no obligation quote tailor-made for your business in less than 2 minutes. Then it's up to you. If you accept the quote, the entire process can be completed online with one simple click of a button. Pay monthly and cancel at any time.

OUR DIFFERENCE?

Designed by farmers, we're the only insurer outside of the USA to offer volatility insurance.

Stable uses independent UK indexes from the AHDB and DEFRA to calculate the premiums you pay and settle claims we make to farmers. We use indexes, (instead of assessing the risk for each individual farm) to reduce the cost and automate the claims process.

We aim to pay all claims just 5 working days after the final index price has been published.

Simple. Secure. Flexible.
